

Glyceryl Glucoside

INCI: Glyceryl Glucoside | Stand Dezember 2025

Glycoin® natural (INCI: Glyceryl Glucoside, Aqua (Water)) is a natural, multifunctional anti-aging and cell-rejuvenating active ingredient. It revitalizes tired, stressed, and mature skin by delivering immediate hydration, while enhancing skin elasticity, density, and thickness. This prebiotic bioactive stimulates the production of growth factors and accelerates cellular renewal, making it especially effective for aging skin. Additionally, Glycoin® natural provides protection against blue light exposure and offers brightening and lightening benefits for a more radiant complexion:
